

ANDREW W. KIRK

Andrew recently served as President and board member of a \$340M tire retail distributor and auto care center, where he was promoted from Chief Financial Officer to aggressively grow the privately held company through acquisition and cultural transformation. Previously, he served as Chief Financial Officer of a \$250M private equity sponsored global transportation procurement enterprise and charter airline. Prior to joining that company, he excelled as a Director with an internationally recognized consulting firm providing on-site advisory services, business integration solutions, and implemented action plans to improve performance for clients.

Earlier in his career, Andrew founded and served as President of a \$20M financial service start-up entity designed to provide the heavy equipment industry with innovative financing solutions. This opportunity developed from his role as Executive Vice President, Chief Financial Officer and Treasurer of a \$450 million heavy equipment distributor, where he guided the company to double-digit returns on equity. Prior to that assignment, Andrew managed all financial operations – including accounting; treasury management; valuation modeling and analytics; annual operating budget plans; and external reporting requirements – as CFO of a \$150 million start-up subsidiary of a large metropolitan energy company which later successfully spun off and went public.

Andrew began his career at General Motors and later served in various financial roles with increasing responsibility at blue chip automotive manufacturing suppliers.

Andrew earned a Bachelor of Arts degree in Economics from the University of Michigan, Ann Arbor, Michigan, and holds a Masters of Business Administration degree from Wayne State University in Detroit, Michigan.
